

## MANGROVE MOUNTAIN UNION CHURCH

Have you noticed in recent times that the Union Church is receiving a significant facelift?

Thanks to the generosity of local nurseries and local people the Union Church is at last looking more cared for.

There have been many plants placed around the property, particularly around the carpark and near the toilet block. These plants are mainly of the Lilly Pilly variety and should give a wonderful display of beautiful leaves and red berries after they have settled into their new homes.

Also, just as we were wondering what was happening to the church roadside sign, a builder has emerged who is now building the replacement sign for the one which was unfortunately destroyed in a traffic accident in December last year. It will be a sign that is double-sided so can be read from either direction by passers-by.

We are pleased to announce that there will be two weddings held at the church in the next few weeks. The happy couples will be married by Christian clergy, one couple in the lovely grounds and one couple in the church. We look forward to these special events on their behalf.

There are still spots available for other Christian groups to hold their services and similar activities at the church or in the hall or on the grounds. However, if anyone wishes to book the property for their own special events or for Christian activities, all they need to do is contact the booking officer for more information. His number is 0408722006.
